

Cornell University
Cooperative Extension
Clinton County

Cornell Cooperative Extension along with the Lake Champlain Basin Program will be holding a series of on-farm meetings this summer to focus on cover crops, no-till planting, precision agriculture & other lake friendly farming practices.

“Farming in the Basin”

Wednesday, July 31

7:00 PM

Dyer Farm

227 Duquette Road, West Chazy, NY

How can a no-till drill be used to help preserve moisture, conserve soil, reduce compaction and most important, where can you rent one?

- ❖ Farm owner Sam Dyer will demonstrate how his operation utilizes a no-till drill to enhance the performance of his grass based-dairy, and how no-till seeding can be used for green manure crops & pasture vegetation.
- ❖ Clinton County Soil & Water Conservation District’s brand new 10’ no-till drill will be demonstrated. Staff will be available for more information on how you may use the drill at your farm.
- ❖ Clinton County Cooperative Extension will be addressing seeding issues.
- ❖ Myra Lawyer, Agronomist from the LCBP will be there to perform compaction tests & explain how best management practices used on farms are reducing phosphorus from getting into the Lake.

Registration is appreciated but not required. To register or get directions, please contact Peter Hagar at (518)561-7450 for more details.

Cornell Cooperative Extension of Clinton County provides equal program and employment opportunities.
