

Lake Champlain Federal Partners Workgroup

federal agencies working
together for clean water
quality and healthy habitat in
the Lake Champlain Basin

Learn more at
lcbp.org/federal-partners

The challenges of protecting and restoring water quality, habitat and species in the Lake Champlain Basin habitat are dynamic and complex. U.S. Federal agencies are taking the lead in:

- Aquatic Invasive Species Prevention & Control
- Emergency Preparedness
 - Fish Passage
- Historic and Heritage Preservation
- Native Species Restoration
- Nutrient Pollution Reduction
- Public Education
- Riparian Restoration
- Wetlands conservation

With multiple agencies working to meet these challenges, the Federal Partners Workgroup helps to ensure an efficient and coordinated response by:

-  Identifying common goals and needs
-  Leveraging funding opportunities
-  Providing technical assistance
-  Sharing data and research results
-  Coordinating focused action
-  Prioritizing implementation of conservation and restoration projects
-  Communicating with state and local partners
